Description

We are currently in the final stages of launching an e-commerce platform which will cater for the tourism industry in UK, Italy, Poland and Malta, in a 5 years plan. This project offers accommodation, transport and recreational solutions to travellers who seek these same options when traveling to a specific country either for work or on holiday. This will work by asking the customer what budget he has in mind, the dates and location where he wished to travel. If the said location is listed with our platform, we will provided multiple packages where the user can choose type of accommodation (hotel, B&B on a boat or any other holiday furnished premises), transportation (cab or car hire) and recreational facilities such as booking a table at a restaurant, boat trips, a tuk-tuk and also a viewing of a property. The user will only have to choose a specific package, register and settle payment.

Idea

Selling Accommodation, transport and catering services on our e-commerce platform

We are currently in the final stages of launching an e-commerce platform which will cater for the tourism industry in UK, Italy, Poland and Malta, in a 5 years plan.

This project offers accommodation, transport and recreational solutions to travellers who seek these same options when traveling to a specific country either for work or on holiday.

This will work by asking the customer what budget he has in mind, the dates and location where he wished to travel. If the said location is listed with our platform, we will provided multiple packages where the user can choose type of

accommodation (hotel, B&B on a boat or any other holiday furnished premises), transportation (cab or car hire) and recreational facilities such as booking a table at a restaurant, boat trips, a tuk-tuk and also a viewing of a property.

The user will only have to choose a specific package, register and settle payment.

We are seeking partners from a number of countries in order register businesses on our platform
